

Karen Radcliffe is having trouble
reading the screen because the
fonts are too small

As you can see the font is
very tiny and she is not able to read
it

Karen has found an app that supposedly helps with things like this

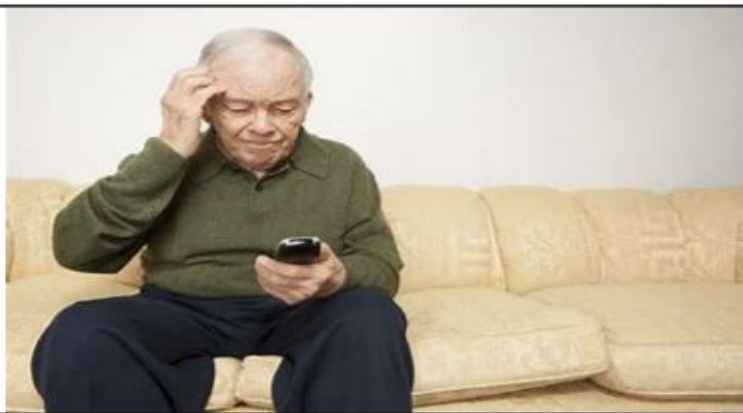

Karen has used app and it increased
Her font for her! Now she can read all
the facebook she would like without
issues.

Karen is now very happy she can read
facebook now!

Franklin cant see his phone screen because it is too dark and he does not know how to brighten it up.

Franklin proceeds to listen to an audio tutorial explaining step by step on how to use the setting on his phone to help him brighten his screen

Franklin uses the step by step tutorial to brighten his phone screen and gets really happy

Franklin shows his friends how to use the great app with audio tutorials catered for older people to help use their phones

Karen starts her day with coffee

**Karen doesn't have her glasses on
so she cannot answer her friends
call**

**The assistant notices she has not
interacted with the call and read aloud
her options to accept or decline**

**Another device is ringing nearby and
Karen is able to answer from the
screen once she knew she had a call**

**Her grandson called without any input
from Karen to see how she was doing
soon after**

**Karen finished her morning easier due
to less frustration**

Chester just got a new device and is trying to connect with his family online

He makes a social media account, but can't figure out how to use it

Chester finds an app online that helps seniors with easy to follow tutorials, and is able to create an account and find his family

Chester talks to his family and tells them about the app he found, which he keeps in case of future problems
